

1. MATLAB/Simulink DVDs will be distributed to your team at Kickoff.
2. Follow the installation instructions at <http://www.mathworks.com/BESTinstall> **exactly**. During installation, when prompted for the File Installation Key and Activation Key, use the information printed on the DVD label.
3. Your Simulink license will expire 12 months from the time of installation. You must also install easyCv4 in order to download programs to the robot.

1. Go to <http://www.intelitekdownloads.com/easyCV4/>
2. Click on the "Download easyC v4 – 4.1.05" link.
3. Your hub will provide you with a valid license key for your team.
4. After installation, right-click on the easyCv4 icon and select "Run as Administrator". On the license screen, select "Subscription License" and enter the license key code provided to you by your hub.
5. Your easyC license will expire on 12/31/2012.

1. Go to <http://www.robotc.net/best/#installing>
2. Follow the installation instructions on this page.
3. Register for your license file per the instructions.
4. Your RobotC license will expire 11/01/2012.
